PANDEMIC REWIND

It's hard to believe that it's been five years since the COVID-10 pandemic. During such a challenging time, one of the most inspiring stories emerged. Our dedicated drivers and staff worked tirelessly to transport out-of-town nurses who came to New York City to support local hospital staff. Over months of working to care for patients, the drivers and nurses formed a special bond through their daily interactions. The nurses deeply appreciated our drivers and found comfort in seeing a familiar face each day. Thank you to our drivers, staff and these nurses for creating some joy during a unique and stressful time.
